Who should Attend ?

Engineers, or any type field of Project Managers and program Managers who are or will be involved in the areas of engineering, production, data processing, research and development, construction, corporate planning, finance and marketing. This course is of particular importance to engineers, executives, managers and supervisors in government and industry who are concerned with effectively managing ventures and projects where cost, schedule and performance of programs must meet rigid requirements.

Course Methodology

Customized training manual and classroom lecture presentation with exercises. This is a fully interactive program, allowing for active participation and skills practice during sessions, including learning stimulating quizzes to ensure the trainees are well acquainted with the PM topics. There will be assessments, case studies, practical assignments and group discussions.

Trainer

Eng. Yousif Amin holds a Bachelor's Degree in Electronics Engineering and two Post-graduate degrees in Telecommunication and Software Systems from England. He is a certified Project Management Professional (PMP) since 2008 by the Project Management Institute (PMI), USA and a certified CPO and CPP, since 2018 from The Institute of Project Management (IPM), Australia. He worked with the CAA as Radar Engineer and with Batelco as The Broadband Network Manager for fiber optic equipment projects. In 2016, Eng. Yousif joined the Ministry of Works as Head of Career Development and managed the Ministry's strategic Knowledge Management associated projects. He is currently retired and dedicated to managing special projects and conducting PM training programs for youth and graduates.

Quality Procedure

Assessment: All assessments will be conducted during the workshop. Assessment tasks consist of e.g: quizzes, practical discussions, case studies, role plays, on-site exercises, hands-on.

Certificates: International Certificates will be awarded by the IPM, Australia to the learners who pass in the assessments and completed at least 80% of the attendance report.

Course Language: English

Progress Reports: Progress and attendance reports linked to the specifications for the reporting period will be sent to the company for each learner. This report will list learner's progress and achievements with respect to the appropriate section of the syllabus, indicating the progress made towards the training objective.
